

Plan for Service

Valley District Annexation No. 62

- A. A description of the level and range of each service to be provided to the affected territory.**

This area is already developed with 18 single-family homes and is currently receiving retail water services from Fontana Water Company (FWC). Valley District provides FWC with supplemental State Project water.

Valley District and FWC have been serving these customers since the area was developed in 2003 and will continue to provide water services for this area. FWC has adequate onsite water infrastructure to continue to serve these customers and the facilities are maintained on a regular basis.

- B. An indication of when the service can be feasibly extended to the affected territory.**

This area is already developed and is receiving water services hence does not anticipate any further development or future water connections. Hence, not applicable to the District

- C. An identification of any improvement or upgrading of structures, roads, water or sewer facilities, other infrastructure, or other conditions the affected agency would impose upon the affected territory.**

This is not applicable to the District.

- D. The estimated cost of extending the service and a description of how the service or required improvements will be financed. A discussion of the sufficiency of revenues for anticipated service extension and operation is also required.**

The funding source for ongoing operating and maintenance costs would be by way of rates and charges that are billed to customers.

E. An indication of whether the annexing territory is, or will be, proposed for inclusion within an existing or proposed improvement zone/district, redevelopment area, assessment district, or community facilities district.

This area is not part of a new annexation and Valley District/FWC already provide water services. These services will continue with no change. As stated earlier, this area is already developed and hence, no future improvements are anticipated.

F. If retail water service is to be provide through this change, provide a description of the timely availability of water for projected needs within the area based upon factors identified in Government code Section 65352.5 (as required by Government Code Section 56668(k))

Valley District/FWC already provide water services to this area and has adequate infrastructure to continue to serve these customers. The area is already developed and built-out hence no future development or additional growth is anticipated.

G. Certification

I hereby certify that the statements furnished above present the data and information required for this Plan for Service to the best of my ability, and that the facts, statements, and information presented herein are true and correct to the best of my knowledge and belief. I understand that if this proposal is approved, the Commission will impose a condition requiring the applicant to indemnify, hold harmless and reimburse the Commission for all legal actions that might be initiated as a result of that approval.
